

HAYMOZ Fleet Performance Ltd – We are Turning Vision & Strategy into Results – Securely and Efficiently

HAYMOZ Fleet Performance Ltd. provides independent Fleet Reorganization, Management, Consulting and constant measurement of fleet performance via best in class web-tools as experts in change management, reengineering and proactive cost & sourcing management for international fleet owners.

We have been in operation since 2001 supporting large international fleet owners in reorganizing and managing their car fleets in more than 63 countries.

Focus

HAYMOZ Fleet Performance is successfully combining fleet management expertise with fleet market intelligence.

Our proposition is

- Customer committed
- Performance driven
- Industry independent
- Best in class
- Transparent and process driven
- International and local
- Standardized and customized

Our performance, reliability and high quality fleet management services are the first choice for large fleet owners seeking solutions for difficult fleet reorganization challenges.

With more than 10 years of experience, HAYMOZ Fleet Performance combines best practice, state-of-the-art technology and specialized analytical management reporting to provide innovative fleet solutions. Whatever your fleet vision & strategy are, we will use our focus and our expertise to provide you with best tailored results.

Independent Fleet Reorganization

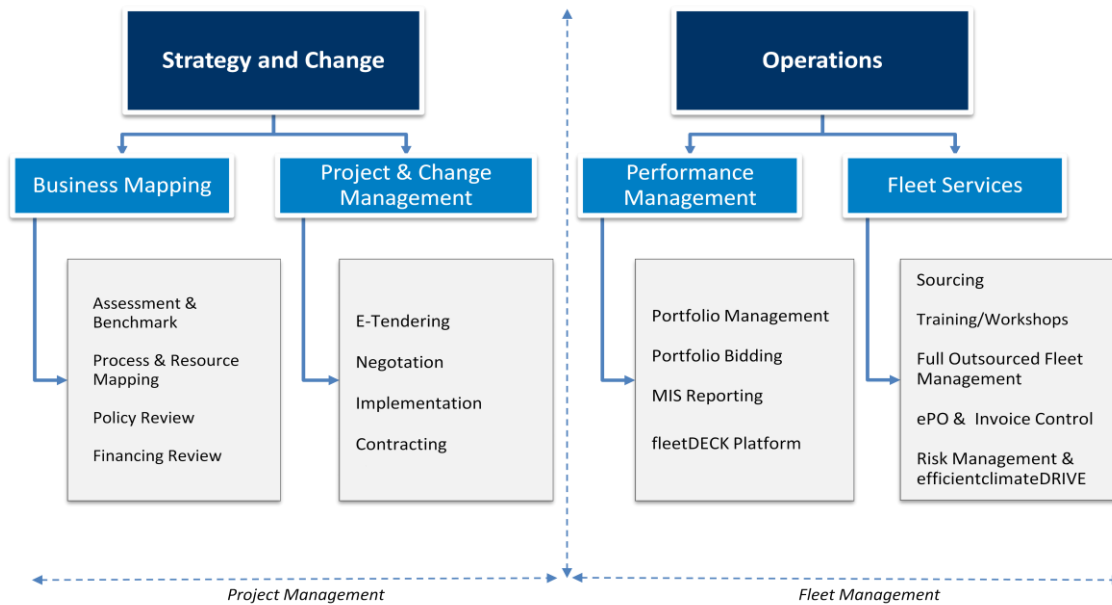

As an industry independent company, HAYMOZ Fleet Performance is working in a multi-supplier environment, integrating and managing best in class services of international and local service providers. External and internal factors influence your company's fleet performance. Getting transparency, answers and a well-developed action plan, means to work with a holistic centralized approach on fleet management.

Efficiently assessing and benchmarking your consolidated international fleet data, policy redesign and monitoring fleet performance across your entire organization are key factors for sustainable success.

Our integrated management approach – based on a TCO (Total Cost Ownership) and CO2 conception – helps fleet owners to implement a performance and environmentally driven fleet strategy.

Our Modular Service Offering

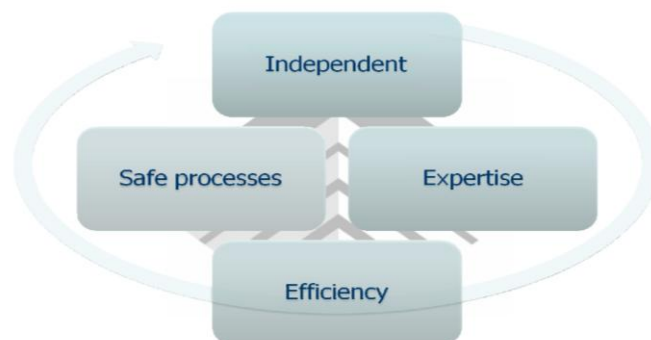

Targets

Since years HAYMOZ Fleet Performance is turning fleet targets into added value. Sustainable savings and green solutions are targets we commit to. Independency and high quality reputation are the bases of our business and growth. With continuous innovation that drives performance, we provide customized fleet solutions for your success.

High standard of data security and confidentiality reflect our reputation for high quality in the fleet industry. HAYMOZ Fleet Performance is a creative learning organization within the dynamic international fleet market. We work closely to the client and market to anticipate future developments for your benefit.
